

CSI/AIA Joint Meeting April Program

The Living Building Challenge and Net Zero: a Case Study of the Bullitt Center

Presenter:

**Jim Hanford, AIA, LEED AP BD+C
Principal at The Miller Hull Partnership**

Program Sponsor:

The Living Building Challenge and Net Zero Energy is achievable. This presentation will look at the Bullitt Center project as a case study.

Learning objectives are:

- Basic performance requirements of the Living Building Challenge.
- Best practices for integrated design process for Net Zero Buildings.
- Learn the performance aspects of the Bullitt Center.
- Learn to identify major challenges for owners, operators and occupants in Living Buildings and Net Zero; including required education and training.
