

Katerra is a technology company transforming property development, design, and construction—from start to finish. We are building an entirely new kind of company that brings together expertise in design, technology, material sourcing, manufacturing, and construction as a single integrated offering.

With this unique approach, we have the opportunity to design and build beyond compromise. Beautiful, efficient, sustainable—we can do it all. The era of design concessions is over.

At Katerra, we lead from every seat. Our ideal team members are self-starters that embrace ambiguity, think big, and bring their own uncompromising standards of excellence.

One of Katerra's cultural principles is Diversity. We believe different backgrounds, ideas, and skillsets result in better outcomes. Katerra does not discriminate in employment based on race, color, creed, national origin, ancestry, sex, marital status, disability, religious or political affiliation, age, sexual orientation, or gender identity. Katerra encourages people of all backgrounds to apply, including people of color, immigrants, refugees, women, LGBTQIA, people with disabilities, veterans and those with diverse life experiences.

Architecture – PRODUCT LEAD

The Product Lead, Architecture position will drive the cross-disciplinary development of the Commercial CLT (Cross-Laminated Timber) spec office product, working closely with and facilitating a variety of teams including but not limited to architecture, engineering, sub-assembly product development, industrial design, manufacturing, materials sourcing, and component design. This position requires extremely strong communication skills, deep technical background with knowledge and interest in driving design to optimized manufacturing in a creative manner, and experience in managing large, complex teams with diverse backgrounds. This position will allow an individual to thrive in an exciting multi-discipline environment with opportunities to hone and develop professional, technical, communication, and managerial skills. This position requires an individual to work fast and to think outside the box of standard architectural processes. This position provides opportunities to work with world-renowned mass timber design and engineering experts and will work to bring CLT to the forefront of the commercial spec office market.
